EDUCATION

University of Toronto 2026 – 2027 (expected)
MSc in Applied Computing Toronto, ON
Coursework: Advanced Data Systems, Computational Linguistics

Queen Mary University of London 2021 – 2024
BSc in Computer Science, First Class Honours London, UK
Awards: Multiple Gold Awards in UK Mathematics Trust (UKMT) competitions

EXPERIENCE

Tabula Lingua Nov 2024 – Sep 2026
Senior Product Research Analyst Remote (United States)
- Researched improvements to proprietary NLP and ML models for fine-grained, multimodal emotion analysis, and to the cognitive and emotional-psychology models behind them.
- Deciphered and documented an inherited legacy NLP engine, then optimized it, added features, and refactored it and its demo app for public web hosting.
- Distilled research notes on the engine and its cognitive model into introductory presentations on material previously called “confusing” and “intimidating”.

Kearney Jun 2023 – Sep 2023
Management Consulting Intern India
- Supported a sales-acceleration program promoting a client’s alternative fuels in the Indian vehicle market.
- Conducted market research and fuel-price analysis, and compiled industry outlook reports for client briefings.

Lockr Space Jun 2022 – Sep 2022
Web Design Intern (Micro-internship) United Kingdom
- Designed and maintained a sustainable sportswear brand’s Shopify storefront, including plugins and analytics.

Digi Investo Media Jun 2022 – Sep 2022
Web Developer (Freelance Intern) India
- Built a WordPress blog promoting a home-remedies store, with custom plugins and database integration.
- Rebuilt the entire site from scratch in 2 days after it was corrupted one month into development.

Antelopus Energy Dec 2020 – Mar 2021
Full-Stack Developer (Freelance Intern) India
- Built a web app for logging employee requests, with moderator review and monthly audit reports.
- Owned the jQuery frontend and Flask backend; moved the database from Access to SQLite, then PostgreSQL.

PROJECTS

Automatic Labelling of Wideband RF Captures · Industry project with Qoherent 2026 – Present
- Group project on automatically labelling signals within wideband radio-frequency (RF) captures.

NES Game in 6502 Assembly 6502 ASM · YY-CHR · FamiTracker
- Experimental game written close to the NES hardware, with original pixel art and music.

Discord Game-Master Bot Python · Flask · discord.py
- Bot that runs online tabletop RPG sessions as a virtual game master; self-deployed on a custom cloud server.

Hackathons & Game Jams Unity · GameMaker · Java
- 1st and 2nd place at two hackathons; two 3-day Unity game jams; a GameMaker puzzle game with customisable levels; Java games incl. a procedural-only ASCII RPG.

SKILLS & INTERESTS

Languages Python, Java, JavaScript, SQL, HTML/CSS, 6502 Assembly
ML & NLP PyTorch, TensorFlow, scikit-learn, NLTK, Gensim, LangChain, OpenCV, YOLO, Stable Diffusion
Data NumPy, pandas, Matplotlib, MATLAB, Excel macros
Web & DB Flask, jQuery, PostgreSQL, SQLite, WordPress, Shopify
Interests Piano (13 years, Trinity Grade 8) · Archery (local tournaments) · Rowing (university team)
